Marie Wells Coutu

Marie Wells Coutu accomplished at age 62 a lifelong dream of being a published novelist. Be inspired by her journey and learn how you can achieve your own dream.

She combines her talks with a brief dramatic presentation that brings a biblical character to life.

Her novels in the Mended Vessels Series re-imagine the lives of biblical women such as Queen Esther and the woman at the well in contemporary settings.

Copies of her books will be available.

“...I would rate this book/author right up there with my favorites,
i.e. Karen Kingsbury, Francine Rivers, Lori Wick, etc.”
